Differenze estetiche dalle illustrazioni o tra le singole maniglie in legno non possono essere oggetto di reclamo, in quanto dovute alla struttura naturale e non omogenea del legno.
L'utilizzo di questi materiali pregiati su oggetti di piccola dimensione come le maniglie, permette di utilizzare al meglio risorse naturali che sono preziose, in quanto rare e a volte addirittura uniche.

Any aesthetic difference from the illustrations or between the individual wooden door handles cannot be ground for complaint, as this is due to the natural and non-homogenous structure of wood.
The use of these valuable materials on small objects such as door handles, allows to make the best use of natural resources that are precious, as they are rare and sometimes even unique.

ottone-legno Riva®/brass-Riva® wood
