IV

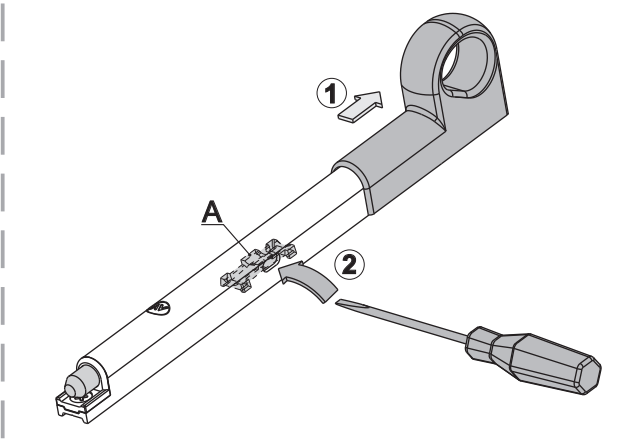

Per sfilare la mandata, dopo averla portata a fine corsa in apertura, agire premendo sul componente **A** attraverso la feritoia, come indicato in figura.

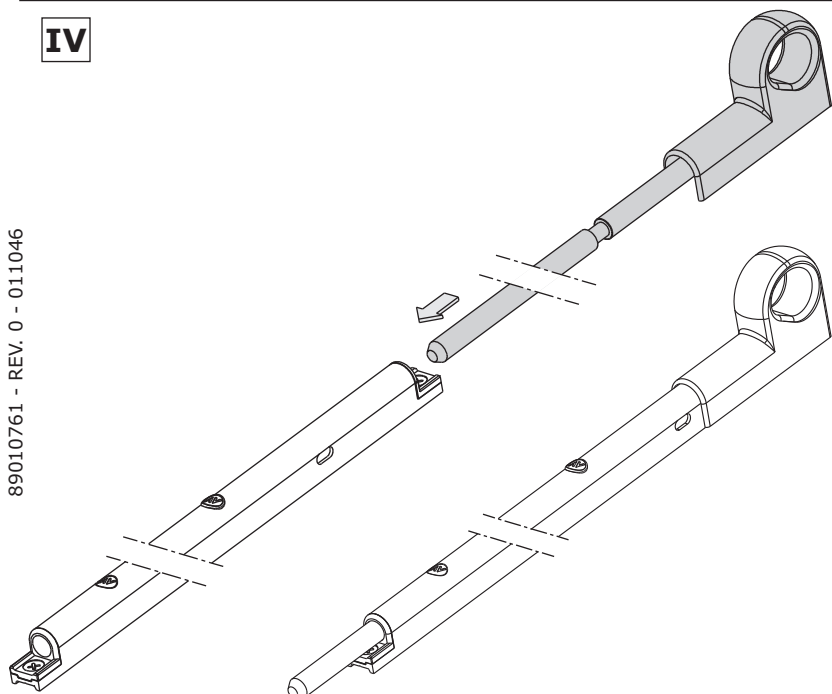

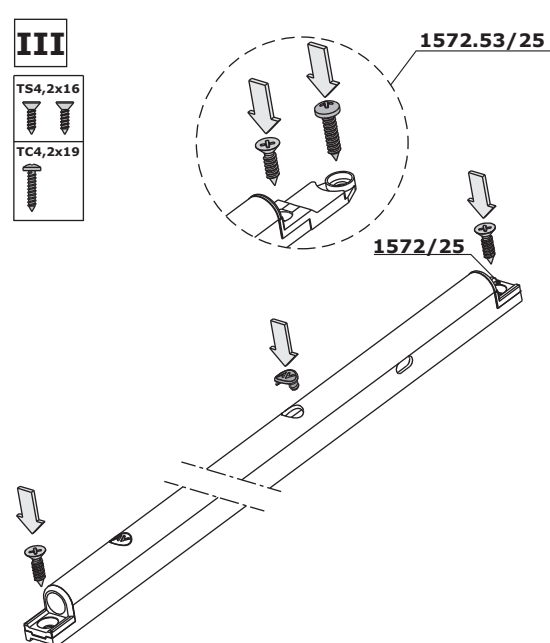

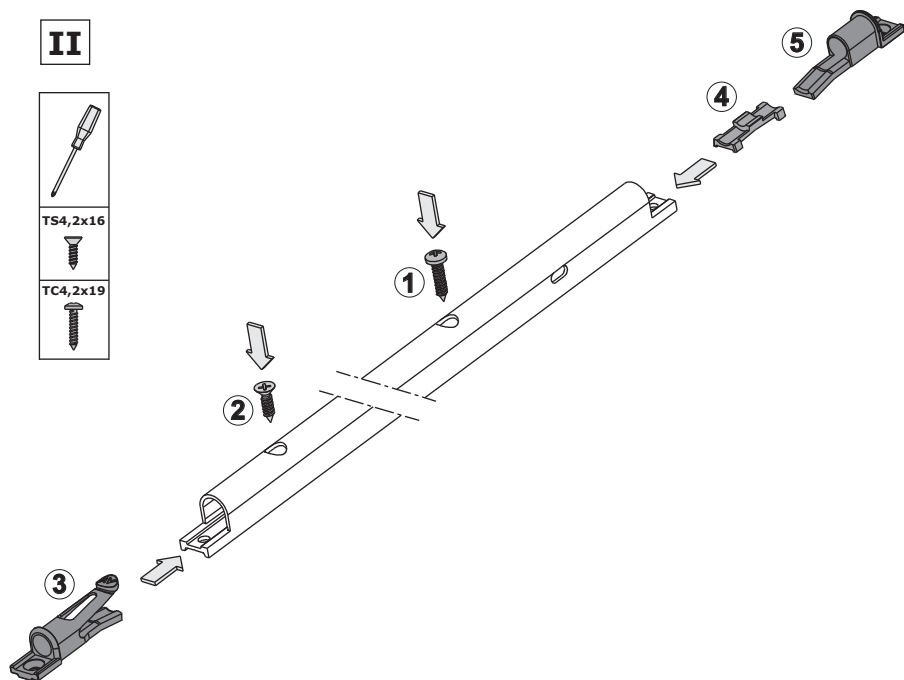

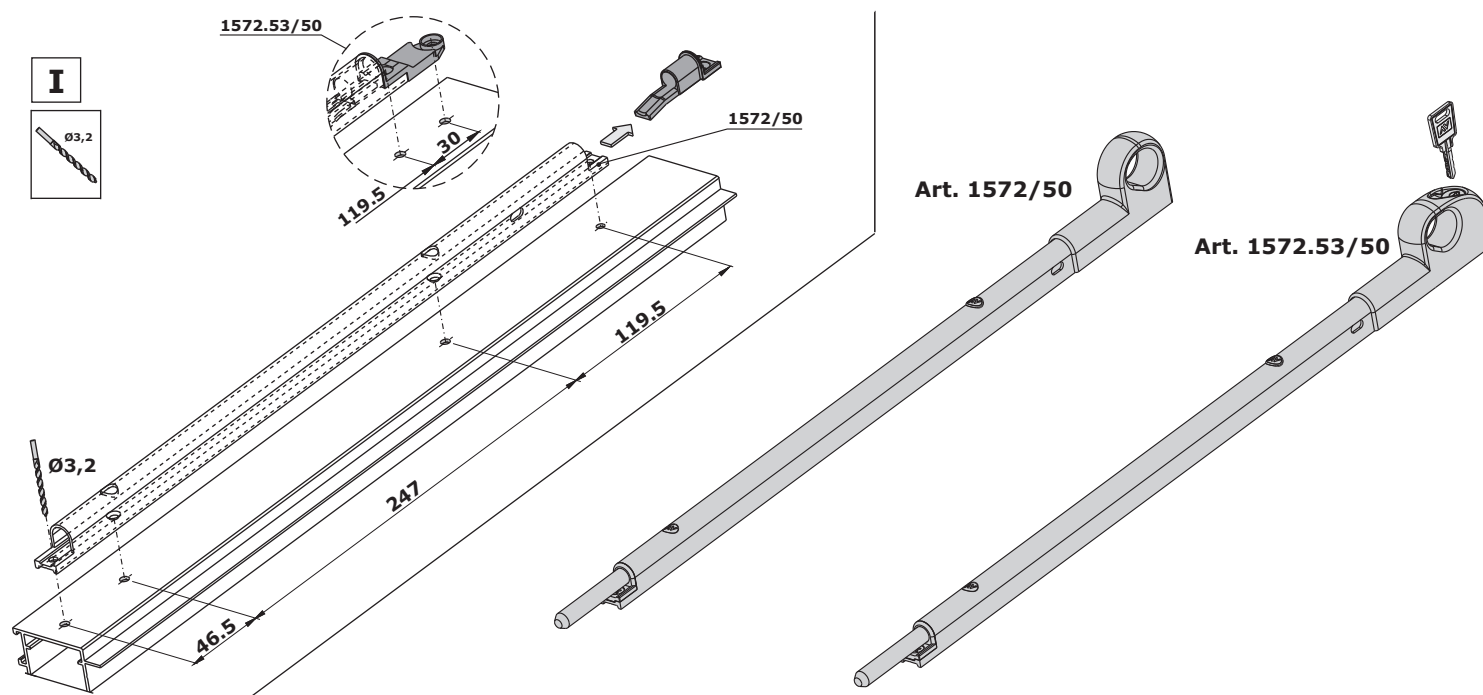

To extract the rod-handle group, after bringing it to the limit stop in opening position, press on component **A** through the slit, as shown on figure.

Quand le pêne est déjà dans la position de fond de course, pour l'enlever agir en pressant sur la pièce **A**, comme indiqué par le dessin.

Para sacar el grupo empuñadura/varilla, después haberlo llevado al final de carrera, empujar sobre el particular **A**, como indicado por el dibujo.

Um die Drückbaum herauszuziehen, nach dem dieser bis zum Endanschlag bei der Öffnung gebracht worden ist, wirkt man drückend auf die Komponente **A** durch den Schlitz, wie auf der Abbildung angezeigt.
