Stampa a base acqua con effetto legno

*Water-based print*

7 mm

Mdf  
*Mdf*

I Magic Wood sono realizzati mediante stampa a base acqua con effetto legno. Morbidezza e calore del legno unitamente a uniformità, resistenza e durata nel tempo.

## **caratteristiche strutturali**

---

Il disegno è riprodotto su pannello a base MDF mediante rulli fotoincisi che eseguono un'applicazione di inchiostri mediante sincronizzazioni elettroniche.

## **verniciatura**

---

La verniciatura a base acqua. Vengono utilizzate le stesse vernici dei pannelli in legno in modo da ottenere la stessa morbidezza e lo stesso calore.

## **pulizia**

---

Pulizia del rivestimento da polvere o altre impurità usando esclusivamente acqua tiepida ed eventualmente sapone neutro.

*The Magic Woods are water-based printed with wood effect. Smoothness and warmth of wood in conjunction with uniformity, strength and durability over time.*

## **structural features**

---

The pattern is reproduced on an MDF-based panel with photo-engraved rollers, which apply inks through electronical synchronization

## **painting**

---

Water-based painting. The same varnishes are used as for the wood panels to ensure the same smoothness and warmth.

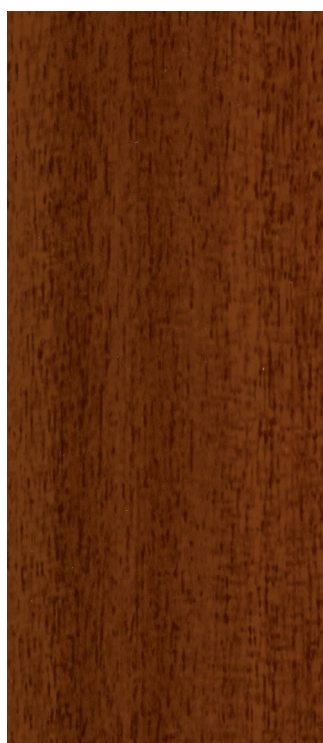

## **cleaning**

---

Clean the panelling from dust or other impurities using only lukewarm water and, if necessary, neutral soap.
