APPLICATIONS

SIZES

IT RADIO MOBILE è un dispositivo di comunicazione wireless per la gestione in sicurezza di uno o più bordi sensibili. Applicabile a tutti i tipi di bordo, risparmia laboriosi cablaggi.

UK RADIO MOBILE is a bidirectional wireless communication system used to manage one or more safety edges. The system is easy to install without any laborious wiring on the moving parts.

FR RADIO MOBILE est un dispositif de communication sans fil pour la gestion en sécurité d'un ou plusieurs bords sensibles. Il est applicable à tous types de bords sensibles et évite les câblages laborieux.

DE RADIO MOBILE ist eine Funkanlage für das sichere Ansteuern einer oder mehrerer Kontakteisten. Sie ist für alle Arten von Kontakteisten verwendbar und erspart arbeitsaufwändiges Verkabeln.

ES Radiomobile es un dispositivo de comunicación inalámbrico que controla uno o varios bordes sensibles con toda seguridad. Instalable en todo tipo de bordes, evita el engorro del cableado.
